

Alcohol Inhaling Devices Unlawful
N.C.G.S. 90-113.10
June 21, 2007

On June 21, 2007, Alcohol Inhaling Devices became unlawful in North Carolina. In addition to making it unlawful for anyone to sale any "inhaling device", the statute also makes it unlawful for a person to inhale any compound, liquid, or chemical containing toluol, hexane, trichloroethane, isopropanol, methyl isobutyl ketone, methyl cellosolve acetate, cyclohexanone, ethyl alcohol, or any other substance for the purpose of inducing a condition of intoxication.
